Data Science Internship at Data Glacier
(30 March – 30 June 2022)

Timetable:

Week 1 (30 March – 06 April):

1. **Learn about BitBucket for Version Control (link)**
2. **Version Control Assignment**
   - Clone the VC repo ([https://github.com/DataGlacier/VC.git (Links to an external site.)](https://github.com/DataGlacier/VC.git))
   - Create a new branch
   - checkout newly created branch
   - Run the add.py and provide your name and fav sport as input
   - Run the test script using command: pytest test/test.py -s
   - ignore warning and if there is no error then add, commit and push your changes to repo
   - create pull request and assign to reviewer (If you are working in the group else push the changes to your own repo and submit the URL of that)
   - If reviewer approves, then merge the changes to master (optional as this is individual assignment.)
   - Submission Link: https://github.com/AmirAli5/VC
3. **Learn about Scrum (link)**
4. **Learn about Kanban (link)**
